ADDRESSING THE CLIMATE CRISIS

as an innovator and enabler

 +1 202-750-0007

 www.ade.com
info@ade.com

An Enabler

Assisting innovators advance their ideas and visions, from concept to commercialization, with grant and proposal writing, financing, 3rd party study, and due diligence services.

Innovations in:

Agriculture

Development of a model state-of-the-art, non-polluting, planet friendly farming operation producing 150+ food products from seed and birth all the way to market and table.

Stewardship

Incentivizing rural landowners, who manage more than half of U.S. land area, to expand eco-system stewardship and increase the carbon capturing capacity of their lands.

Transportation

Enhancing today's transportation infrastructure to move existing vehicles more efficiently, faster, and safer without burning fossil fuels, thus slashing emissions and operating costs.

Take Action: every person, from middle-management to the executive suite, government officials, town council members, everyone who will speak up to suggest, ask for, and offer ideas for change: You can make a difference. Need suggestions? We can help. Call +1 202 750 0007.
